## Safety Rail Storage Cradle MODEL 414

### ASSEMBLY GUIDE

#### ⚠ WARNING ⚠

Always install and use safety rails in keeping with applicable local, state and federal safety standards. Failure to do so can possibly result in severe personal injury or death.

1. Hang storage sling on the BEAM SIDE of the deck first, centered between the diagonal brace connection tabs.

2. Hang on the other side of the deck.

3. Install rails for on-board storage.

4. Recommended for storage of safety rails when ladders are not raised. If ladders are raised, be sure to center the stored safety rails so they don't get caught on the ladder rungs.
